DESCRIPTION

The automatic black tea fermentation machine automatically and precisely controls the temperature, humidity, time, etc., and provides the most suitable and stable environmental conditions to complete the application of moderate alcoholic equipment to avoid the problem of excessive fermentation or insufficient fermentation, so that the color of the young leaves is red.

The tea fermentation has been rid of the era of relying on traditional crafts, so that the quality of tea has been further stabilized, unified, and upgraded. This machine is easy to operate and has low maintenance costs. It is suitable for use in home tea gardens and large, medium, and small tea farms.

ADVANTAGE

1. This machine is suitable for the fermentation process in the production process of black tea;
2, can accurately control the temperature and humidity of the box wind, so that the control of the fermentation process can be freely desired, so that the production of fine black tea can be copied in batches;
3, the use of advanced integrated circuits, coupled with efficient atomizing head and electric heating system, accurately control the internal temperature and humidity of the box;
4. The patented air circulation system ensures uniform temperature and humidity of each floor;
5. The inner tank, water tank and material plate are made of stainless steel.

APPLICATION

Automatic black tea fermentation machine is suitable for processing black / green / oolong / white / dark / herbal tea, the following is the working time required for the above tea production.

Type Of Tea	Working Time
Black Tea	2-6 Hours
Dark Tea	12-24 Hours
Herbal Tea	2-6 Hours

The above data is for reference only, and the specific processing time shall be determined according to the actual situation.

SPECIFICATION

Automatic black tea fermentation machine specification list:

Model	DL-6CFJ-20QB
Size	980×83×1700 mm
Voltage	220/50 V/Hz
Heating mode	Heating wire
Heating power	3 KW
Heating group	1 Group

Fan motor	Power	60 W
	Speed	2200 rpm
	Voltage	220 V
Tray size		720×520×100 mm
Tray quantity		5 pcs
Tray layers		5
Efficiency		60 kg/batch

Specification of all of Automatic black tea fermentation machine.

Model	6CFJ-20	6CFJ-60	6CFJ-80	6CFJ-120
Tray Quantity	5pcs	16pcs	32pcs	32pcs
Voltage	220V	220V	220V	380V
Power	3 kw	6 kw	6 kw	9 kw
Capacity	60 kg	150 kg	250 kg	350 kg

If you have special need, it can be customized according to the needs of customers.

DETAILS

Integrated microcomputer control system, temperature and humidity can be intelligently controlled.

The inner tank and trays are designed with stainless steel, which is clean and hygienic.

The water tank with atomizer is installed on the top, and the atomized water mist naturally fills the inside of the tea fermentation machine, and
the fermentation is more uniform.

Using high-strength steel hinges and door handles, the service life of the machine is increased by 40% compared with other companies.
