

DESCRIPTION

Lavender picking machine using our own G4K 2 stroke, 41.5CC, 2.2KW gasoline engine, output power is larger than 4 stroke, please note that the ratio of engine oil to gasoline is 25:1. The performance is more stable, and will not extinguish at high temperature. lavender picking is more efficient and efficiency is 40 times that of manual labor.

Due to the low elevation of lavender, conventional harvesters require people to bend down to pick them, which makes them uncomfortable after working for a long time. We have added a shelf design, and the height of the picking can be adjusted by 20cm, which perfectly fits most of the lavender farms, and is a right-hand man for picking lavender and other flowers

ADVANTAGE

1. Gear type clasp design, high strength, not loose, tea picking process more relaxed.
2. With shelves and wheels, there is no need to bend down, reducing the burden on the body.
3. Clutch and throttle switch integrated design, made of high strength alloy, service life increased by 100%.
4. Independently designed fan blade and fan cover, plastic fan and aluminum fan are available for higher strength and more sufficient air volume.

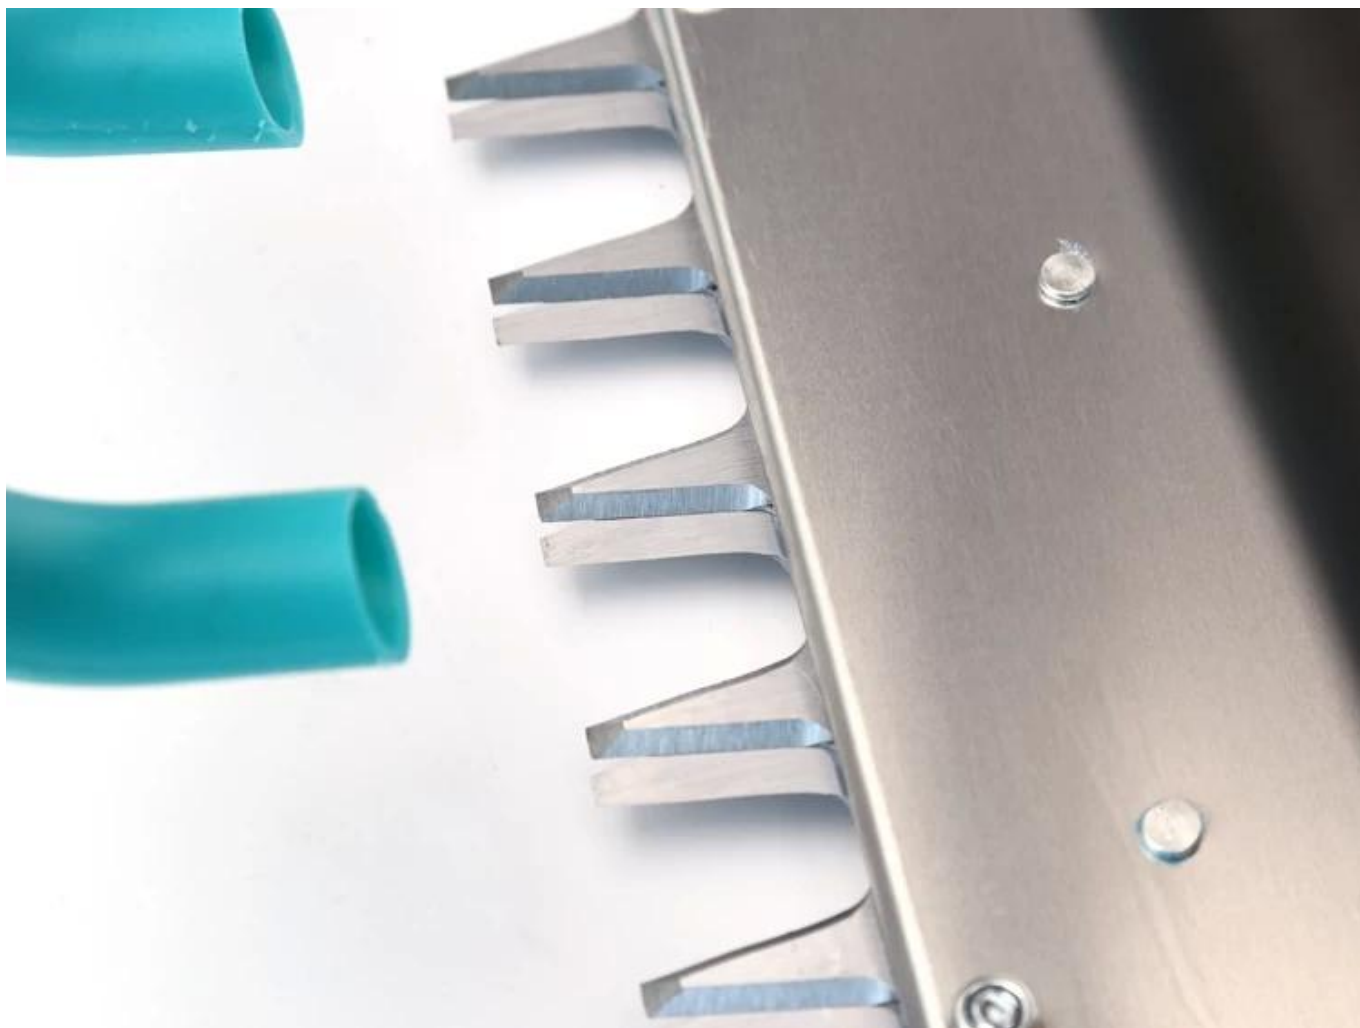

DETAILS

Our self-developed gasoline engine has low noise, sufficient power and more fuel saving.

Since eight years ago, we were not satisfied with using gearbox accessories of the same poor quality as other peers. We spent hundreds of thousands of dollars to build our own gearbox components, which increased the life of the machine by 100%

SK5 carbon tool steel has been quenched with high hardness and strong wear resistance. It can cut 1cm thick branch directly.

SPECIFICATION

Lavender harvester specification list:

Model	DL-4CP-1210W
Engine model	G4K
Cutting width	1210 mm
Engine power	2.2kw / 2.9HP
Engine stroke	2 stroke
Displacement	41.5CC
Cooling type	Air cooling
Blade type	Straight/Curved type
Packing size	142×52×45cm
Weight	50kg

Specification of all of [One Men Use Lavender Herb Harvester](#).

Model	Cutting Width	Engine	Power
DL-4CP-1210W	1210/1140/1000 mm	G4K	2.2 KW
DL-4CH-1210W	1210/1140/1000 mm	G4K	2.2 KW

If you have special need, it can be customized according to the needs of customers.
