

DESCRIPTION

Tea molding machine is mainly used for pressing and molding of various granular (pearl-shaped) tea leaves, such as oolong tea (Tieguanyin), lotus leaf tea, mulberry leaf tea, and other herbal teas.

The tea leaves are easy to stock and the internal fragrance is not easily lost.

ADVANTAGE

1. Integrated design, large-enclosed appearance, with moving bottom wheel, overall beautiful and practical
2. The main structural steel plate of the whole machine adopts Q345B high strength steel plate.
3. The contact part with the material is made of 2mm 304 stainless steel plate to ensure the sanitary standard.
4. Unique inner cavity size design makes the material forming speed faster and improves work efficiency
5. The cover plate has a bolt to ensure that the support structure of the clamshell cylinder is not stressed when the cover is stressed, and the main structure is prevented from being damaged.
6. The pressure control of the double flow channel makes the adjustment of the pressure easy and convenient.
7. Fully automatic control system and pressure sensing device make operation easier
8. Phase sequence protection is adopted, and the motor protection is in place when the phase is missing.

SPECIFICATION

[Granular Tea Molding Machine](#) specification list:

| | |
|----------------------------------|-------------------|
| Model | 6CCXJ-6080 |
| Dimensions | 1760×1870×1600 mm |
| Inner cavity size | 800×600×250 mm |
| Minimum size of material molding | 300×100×250 mm |
| Pressurization method | Hydraulic |
| Maximum pressure | 16 MPa |
| Driving power | 5.5 kW |
| Motor speed | 1400 r/min |
| Rated Voltage | 380 V |

If you have special need, it can be customized according to the needs of customers.

Granular Tea Press Machine DL-6CCXJ-6080

Voltage: 380V 50HZ
Max Pressure: 16 Mpa
Press Type: Hydraulic
For Granulated Tea Press

Capacity 100 kg per batch
Automatic computer control
10 Times Faster than manual **L:185cm W:165cm H:120cm**
