

DESCRIPTION

The [electric heating hand use tea roasting pot](#) adopts electric heating, the caliber of the pot is 60 cm, and the integrated structure is very convenient to install and use.

Compared with the firewood work, the temperature is more controllable, the green color of the tea is more uniform, and it is environmentally friendly and hygienic.

This small device is also suitable for use in tourist areas or resorts that produce tea.

Moderate production can increase the revenue of tourist areas and resorts, while also allowing tourists to experience the fun of production tea for themselves.

ADVANTAGE

1. Integrated combination, heightening the pedestal, more ergonomic, and easier to fry;
2. Adopt new digital temperature control, more precise temperature control and more convenient operation;
3. Using electric heating, green and environmental protection;
4. The whole machine is stainless steel, which is hygienic and beautiful.

APPLICATION

[Tea Electric Pan](#) is suitable for processing black / green / oolong / white / dark / herbal tea, the following is the working time required for the above tea production.

Type Of Tea	Working Time
Green Tea	10-20 Minutes
Oolong Tea	10-20 Minutes

The above data is for reference only, and the specific processing time shall be determined according to the actual situation.

SPECIFICATION

[Tea Electric Pan](#) specification list:

Model	DL-6CSG-60B
Dimension	770×700×780 mm
Voltage	220/50 V/Hz
Heating element	Electric heating wire
Heating power	4.5 KW
Pot diameter	570 mm
Pot depth	220 mm
Efficiency	2-3 kg/time

If you have special need, it can be customized according to the needs of customers.
