

DESCRIPTION

The 4CD-35 electric tea harvester by Guanneng Technology features a portable design, weighing only 1.1kg (excluding battery). Equipped with a permanent magnet DC brushless motor (0.12kW rated power), it offers two-speed adjustment (1500rpm/2000rpm) and a 300mm cutting width, powered by a 24V DC battery.

This single-operator machine integrates advanced Japanese and German technologies, ensuring flexibility and energy efficiency for tea picking in various terrains.

ADVANTAGE

- 1. **High Efficiency & Energy Saving:** The brushless motor delivers stable power with low energy consumption and long lifespan. Two-speed settings allow adjustable picking efficiency based on tea density.
- 2. **Lightweight & User-Friendly:** Weighing just 1.9kg, it reduces operator fatigue and is ideal for single-handed operation, especially in mountainous or small-scale tea gardens.
- 3. **Durability & Reliability:** Built with premium materials, it withstands harsh conditions (high temperature, humidity) and low maintenance costs. Components are certified by industry leaders like Honda Power.
- 4. **Precision Cutting:** The 300mm cutting width ensures accurate harvesting of tender tea leaves, minimizing old leaf contamination and preserving tea quality.

APPLICATION

- **Tea Garden Types:** Suitable for flat, hilly, and mountainous tea gardens, particularly for small-to-medium-sized farms requiring .
- **Tea Varieties:** Compatible with green tea, oolong tea, black tea, and other tea types.
- **Operation Scenarios:** Widely used in spring and summer tea harvests. With a comprehensive sales and service network, it covers major tea-producing regions in China and exports to India, Indonesia, Sri Lanka, etc

SPECIFICATION

Model	4C-35
Diamension	520*180*190 mm
Voltage	16V-31V
Revolutions	10500r/min
Matching battery	18v5ah*2
Ratio of revolutions	4.3:1
Blade length	350 mm
Weight	1.1 kg
Gross weight	≤5.5kg

If you have special need, it can be customized according to the needs of customers.
