

## DESCRIPTION

- 4C-60L is a handheld automatic tea plucking machine designed for tea gardens. Equipped with a 2-stroke gasoline engine and a 600mm reciprocating cutter head, it efficiently harvests tea leaves with precision. Weighing only 10-14.3kg and featuring a backpack design, it ensures flexible and lightweight operation for prolonged use.
- The 0.7L fuel tank supports hours of continuous work, while the centrifugal friction clutch transmission system delivers stable power and easy maintenance. Its comb-type cutting technology separates buds and leaves accurately, minimizing damage, and the negative-pressure suction tube directly collects fresh leaves into a waist-mounted bag, integrating "picking-collection" into one process.

## ADVANTAGE

- **High Efficiency & Labor-saving** Single-operator operation achieves 120kg/h efficiency, equivalent to 5 skilled workers, significantly reducing labor costs and intensity.
- **Low Damage Rate** Comb-partition cutting with sheath protection ensures fresh leaf damage  $\leq 5\%$  and bud integrity  $\geq 78\%$ , preserving tea quality and market value.
- **Portability & Durability** Lightweight (10-14.3kg) and rugged design with wear-resistant alloys adapt to mountainous/hilly terrains, minimizing downtime and maintenance costs.
- **Fuel Economy** 2-stroke engine consumes 0.740kg/h fuel, paired with a 0.7L tank for long endurance in large-scale tea gardens.

## APPLICATION

- **Large-Scale Tea Gardens** Rapid coverage for mass harvesting, shortening the picking cycle.
- **Mountainous/Hilly Terrains** Lightweight design suits uneven landscapes, reducing manual labor.
- **Labor-Short Areas** Alleviates seasonal labor shortages, reducing dependency on temporary workers.
- **Standardized Tea Farms** Precision control over picking height and leaf quality for mechanized production.

## SPECIFICATION

Model	4C-60L
Engine	G26LS
Power	0.81kW
Cutting Width	600mm
Package Dimension	980*310*230mm Body 330*330*460mm With Power
Weight	6.5kg Body 6.8kg With Power

If you have special needs, it can be personalized according to customer needs.
