

## DESCRIPTION

- **Dehydration:** Remove residual moisture from tea leaves (reducing from 20%-30% to 5%-7%) to inhibit microbial activity and extend shelf life.
- **Flavor Enhancement:** Stimulate aromatic substances (e.g., terpenes, aromatic alcohols) in tea through moderate high temperature to form characteristic flavors such as caramel, honey, and jujube.
- **Off-Flavor Removal:** Volatilize undesirable odors in tea (e.g., grassy taste, astringent flavor) to improve taste mellowliness.
- **Quality Homogenization:** Maintain consistent moisture, color, and flavor of batch tea leaves to meet industrial production standards.

## ADVANTAGE

1. **Precise Temperature Control:** Adopt PLC intelligent temperature control with an error of  $\leq \pm 1^{\circ}\text{C}$ , avoiding uneven heating in traditional firewood roasting.
2. **High Efficiency:** Single batch baking capacity ranges from 7kg to 29kg (depending on model), reducing baking time by 60%-80% compared to traditional sun drying (e.g., oolong tea Baking takes only 30-90 minutes).
3. **Controllable Flavor:** Customize tea flavor by adjusting temperature (low temperature 60-80°C for aroma enhancement / high temperature 120-150°C for drying) and time (short-time light roasting / long-time heavy roasting).
4. **Standardized Production:** Baking parameters can be stored and reused for batches, ensuring consistent quality of tea leaves from different batches to meet commercial needs.

## APPLICATION

F Series Square Tray [Tea Baking Machine](#) is suitable for processing Black / green / Tieguanyin Oolong / Wuyi Rock Tea / Aged White Tea / Ripe Pu'er Tea, the following is the working time required for the above tea production.

Tea Type	Processing Temperature	Processing Time
Black Tea	80-120°C	20-60 Minutes
Green Tea	80-120°C	20-60 Minutes
White Tea	80-120°C	20-60 Minutes
Oolong Tea	80-120°C	20-60 Minutes
Herbal Tea	80-120°C	20-60 Minutes

The above data is for reference only, and the specific processing time shall be determined according to the actual situation.

## SPECIFICATION

F Series Square Tray Tea Baking Machine specification list:

Model	DL-6CH-2F
Dimension	670x560x1380 mm
Voltage	220/50 V/Hz
Electric heating type	Electric heating wire
Electric heating power	2.48 Kw
Drying Area	1.8 m <sup>2</sup>
Drying Layers	9
Capacity per batch	7-9 kg/batch

Specification of all of [Drawer Type Tea Baking Machine](#).

Model	DL-6CH-2F	DL-6CH-3F	DL-6CH-5F
Heating Power	2.48 Kw	6.55 Kw	9.55 Kw
Drying Area	1.8 m <sup>2</sup>	3.38 m <sup>2</sup>	5.76 m <sup>2</sup>
Tray Size	400×500×40 mm	580×530×40 mm	600×600×40 mm
Drying Layers	9	12	16
Capacity	7-9 kg	13-17 kg	23-29 kg

If you have special need, it can be customized according to the needs of customers.
