

DESCRIPTION

The Hidden Manual Electric Filter Paper Tea Cup Machine, as a semi-automatic sealing and packaging machine, is suitable for packaging various types of tea. It places tea cups on molds for pressing, precise, fast, simple and easy to use, and can produce an average of 500 cups per hour.

ADVANTAGE

- 1.Used for packaging tea in cups, also known as hidden tea cups. Can package various types of tea, such as green tea, oolong tea, herbal tea, medicinal tea, etc., suitable for various scenarios such as hotel meetings and customer visits.
- 2.At the same time, we can also provide packaging machines according to customer needs, which are used to accurately determine the weight of tea leaves in tea cups.

APPLICATION

- 1.Machine is designed for packaging various types of tea, including **tea fanning, tea bags, loose leaf tea, herbal tea**, and different shaped teas in the food industry.
- 2.Cylinder series is a new model developed by our factory, utilizing automation and cylinder down-pressure sealing principles.**Adjustable heat pressing time**, providing strong utility.
- 3.Machine incorporates advanced automatic Numerical **Control thermostat technology**, ensuring stability, high thermal efficiency, long lifespan, low power consumption, and **minimal noise**.
- 4.It operates on **220V power** and is constructed entirely of **stainless steel**.
- 5.**Original paper cup separation technique** prevents adhesion of the finished tea cups to the heat pressing head, making operation more convenient and practical. The machine is **easy to clean** and maintain.
- 6.Machine uses air compressor to heat press filter paper and paper, with one working position matching one cylinder (consisting of one heat pressing head and one forming base).
