

DESCRIPTION

The tea deblocking machine is mainly used in the processing of black tea or drak tea. After rolling and fermentation, the tea leaves will form lumps, and the humidity is high, and it is difficult to break up the tea pieces by manual operation. Using this equipment, you can quickly remove pieces of tea are scattered to facilitate subsequent drying processing.

This machine is made of stainless steel, beautiful appearance, will not rust, and will not damage tea leaves.

It is environmentally friendly and sanitary.

It is an ideal equipment for producing high quality black tea and black tea.

SPECIFICATION

[Tea Small Clumps Breaker](#) specification list:

Model		DL-6CJK-40B
Voltage		380/50 V/Hz
Dimension		1000*600*1100 mm
Drum diameter		400 mm
Drive motor	Power	0.55 KW
	Speed	1400 rpm
	Voltage	380 V

If you have special need, it can be customized according to the needs of customers.
