

DESCRIPTION

The [Tea Winnower Sorter Machine](#) machine uses a large air volume motor to screen different sizes of tea leaves (different in size and weight of tea) by the blowing of the wind.

Different wind speeds can be adjusted for different tea leaves to achieve the best screening effect.

It can screen out the tea powder, fragmented tea, strip teas of different lengths, granular teas of different sizes etc. It is suitable for most tea production and is an indispensable screening device for tea factories.

In addition to screening tea, other materials can also be screened, such as for herb removal of impurities, peanut peeling, seeds, and rhizomes, etc., which is an ideal device for screening small and medium materials.

ADVANTAGE

1. Compact design, beautiful appearance, up to four levels of grading effect;
2. The whole machine adopts all-stainless steel body and meets QS sanitary standards;
3. The fan adopts a speed governing mechanism, which can set the fan speed for the grading requirements of different materials to achieve the best grading effect;
4. Special with vibration screening.

SPECIFICATION

[Tea Winnower Machine](#) specification list:

Model		DL-6CFX-435QB
Dimensions (L*W*H)		980×520×1190 mm
voltage / frequency		220/50 V/HZ
Total Power		300 W
Grade		4 Level
Weight		55 KG
Fan power		0.12 kW
Motor speed		1500 r/min
Rated voltage		220 V
Vibration motor	power	0.18 kW
	Rotating speed	1400 r/min
	Rated voltage	220 V

If you have special need, it can be customized according to the needs of customers.

PHOTOS

A large industrial stainless steel snowblower machine. It features a large hopper at the top for snow, a central adjustable blade mechanism, and a motor base with wheels. The machine is designed for heavy-duty snow removal.

300 kg Per Hour
Vibrating & Winnowing
All Stainless Steel Type

L:98cm W:52cm H:119cm
