

DESCRIPTION

[Tea Leaf Cutting Machine](#) is mainly used to cut large leaves. Cutting large leaves into small pieces for subsequent processing. The machine is made of food-grade stainless steel, and food-grade conveyor belts are used to ensure the cleanliness and hygiene of ingredients. This machine could replace blades, which can adjust the size of the leaves and the speed of the conveyor belt. It is suitable for cutting large leaf species such as lotus leaves, mulberry leaves, and Ivan tea. It is the perfect supporting equipment for the production of herbal tea.

With 2 motors, blade and belt speed can adjustable, It is the only dual motor adjustable speed cutting machine on the market.

ADVANTAGE

1. New design, with leaf clamping function, ensure that the leaves are cut flat and efficient;
2. The cutting knife is made of high quality tool steel, durable;
3. The food grade conveyor belt is adopted, and the guide plates are made of stainless steel, which is hygienic and environmentally friendly.

SPECIFICATION

[Machine For Cutting Tea Leaf](#) specification list:

Model		DL-6GCQ-50
Dimension		760×1350×900 mm
Voltage		220/50 V/Hz
Drive motor	Power	1.1 KW
	Speed	1400 rpm
	Voltage	220 V
Conveyor belt width		500 mm
Effective cutting width		490 mm
Efficiency		250 kg/h

If you have special need, it can be customized according to the needs of customers.
